EN | REPLACEMENT OF PARTS

Repair and replacement work should only be carried out by qualified personnel and in a safe and secure area. The use of parts not approved by ADARO or unauthorized modifications to the equipment may invalidate any warranty extended to the product.

ES | SUSTITUCIÓN DE COMPONENTES

Las tareas de reparación y/o sustitución sólo deben llevarse a cabo por personal debidamente capacitado y en una zona segura. El uso de componentes no aprobados por ADARO o modificaciones no autorizadas en el equipo pueden invalidar cualquier garantía otorgada al producto.

DE | AUSTAUSCH VON ERSATZTEILEN

Reparaturen/Austausch von Ersatzteilen darf nur von geeignetem Personal und ausschließlich in sicheren Bereichen durchgeführt werden. Die Garantie deckt keine Mängel ab, die durch nicht autorisierte Veränderungen am Gerät oder bei Verwendung von nicht von ADARO zugelassenen Ersatzteilen entstanden sind.

FR | REMPLACEMENT D'ÉLÉMENTS

Les opérations de réparation et/ou remplacement ne peuvent être réalisées que par du personnel dûment qualifié et dans une zone sécurisée. L'utilisation des éléments non approuvés par ADARO ou les modifications non autorisées sur l'appareil peuvent annuler toute garantie attribuée au produit.

IT | RICAMBI

Le riparazioni della lampada devono essere eseguite solamente da personale qualificato e in ambienti sicuri. L'uso di componenti non approvati da ADARO o modificazioni non autorizzate al dispositivo, annulleranno le condizioni di garanzia.

Your ADALIT product is designed and manufactured with high quality materials and components which can be recycled and/or reused. This symbol means that batteries and accumulators, at their end of life, should be disposed of separately from your household waste. If a chemical symbol is printed beneath the symbol shown above, it means that the battery or accumulator contains a heavy metal at a certain concentration. This will be indicated as follows: Hg: mercury (0.0005%), Cd: cadmium (0.002%), Pb: lead (0.004%) In the European Union there are separate collection systems for used batteries and accumulators. Please, dispose of batteries and accumulators correctly at your local community waste collection/recycling centre. Please, help us to conserve the environment we live in!

EN | USER INSTRUCTIONS

► PREPARATIONS FOR OPERATION

Before using the handlamp for the first time, fully charge the battery.

► OPERATION

The ADALIT L-5000 handlamp incorporates a digital display that indicates remaining battery level in hours and minutes.

It has 2 buttons to activate and deactivate the various functions:

(1) In this mode, the red positioning LEDs on the back of the torch light up.

The handlamp features a swivel-head with a range of 5 positions: -30° / 0° / 30° / 60° / 90°.

As a low battery level warning, 15 minutes before running out of battery the main LED will start blinking.

► CHARGING SYSTEM

When the handlamp is inserted in the charger, the LEDs turn off (in the event they are on), and the charger LED switches from green to red. The set default (6 hours burn time at full charge and at maximum light intensity) is restored, even if one of the other two had been selected prior to recharging. Maximum charging time is 8 hours.

The time that appears after the letter "C" indicates the available burning time at maximum power if the handlamp is disconnected from the charger and is used starting at that moment. As the battery reaches the end of its charge, the display flashes on and off every 15 seconds and displays an "F" followed by the available burning time.

If the display shows the error message "E0: 00", this means the charger is defective. Any handlamp component at risk of damage due to charger failure or breakdown will be protected.

► CLEANING, MAINTENANCE AND CHECK-UP

Cleaning: only use pH neutral detergent diluted in lukewarm water and apply with a soft cloth. Do not use alcohol or chemical solvents under any circumstances. Do not immerse in water.

Do not open the handlamp in hazardous areas.

FOR MAXIMUM PERFORMANCE AND BATTERY LIFE, IT IS NECESSARY TO RUN DOWN AND RECHARGE THE HANDLAMP AT LEAST ONCE A MONTH.

► WARRANTY

The L-5000 provides a 2 year warranty against any manufacturing defect, provided it is used under normal conditions and following these instructions for use, except in the case of the battery for which a 1 year warranty is provided.

► ACCESSORIES

The handlamp includes a shoulder strap for carrying, reference no. F5.55.

► SPECIFICATIONS

Size (LxWxH): 260 x 110 x 110 mm | Weight: 1.3 Kg.
Battery: Li-ion | Voltage: 3.7V | Energy: 36 Wh
Temperature range: -20° C < ta < 40° C

► CHARGERS

Marking: CE / E-mark | Ingress protection: IP54
Disconnecting after charging: Automatic
Charge Indicator: Red LED: charging / Green LED: charged
Power supply: DC: 12V. / 24V. | AC adapter 100/240V. 50/60 Hz
Types and Sizes (LxWxH): Individual: 165 x 135 x 110 mm / For 2 handlamps: 300 x 135 x 110 mm / For 3 handlamps: 440 x 135 x 110 mm
